

8 Oct 2025 | 📅 Sprint 04 Planning

Attendees: Zaneerah Essop Ammaarah Cassim Tariro Muvevi  
Raeesa Lorgat Karabo Bopape Imaan Saloojee

## Sprint 04 Planning

|                    |
|--------------------|
| Start Time: 20:30  |
| End Time: 21:30    |
| Venue: Google Meet |

### Notes:

- Sprint goal : Fix all bugs that we discussed with the product owner (i.e tutor) and make sure all documentation is well up to date , including the report.
- We all agreed that we want to ensure that we submit everything before the deadline date.

Bugs that need to be fixed during sprint 04(more bugs will probably be added as the week goes):

- Fix the chat system
- ensure code coverage is there
- one should not be able to sign in as more than one role - ensure the error message can be understood in non-technical english
- a user should not need to fill a form if they try to sign in with an existing account - instead they should be notified that the email is already used
- non bug - ensure we have a clear purpose for the admin and what they do
- users shouldn't have to reload/refresh pages
- number validation in contract to prevent crazy numbers
- make the event details page for vendors tailored for they're needs
- fix scheduling and document uploads in event details
- edit navbar in event details to look better aesthetically

- add error to API documentation (not to sure what i meant here but i hope someone else does)
- do both links for npm audit
- change readme to include our own features
- go more in depth with the testing documentation

Items that need to be submitted on the 19th of October 2025:

- ☐ Github repo link
- ☐ Documentation website- github wiki
- ☐ The actual web-app link
- ☐ The group report
