

## 31 Jul 2025 | 📅 Software Design Project Brief Discussion

Attendees:

### Sprint 01 Meeting 1

Start Time: 20:30
End Time: 21:00
Venue: Google Meet

### Notes

- These are the setup items discussed and selected:
  - Frontend framework: React
  - HTML and CSS for frontend styling
  - JavaScript for Backend
  - Package manager: npm
  - Testing environment: Jest
- For documentation and project management, github projects will be used.
- Communication channels: Mainly whatsapp, discord
- Git branching strategy: Every team member will have their own branch. Any changes should be committed to a member's respective branch unless discussed otherwise.

### Action items
